HONORS AND ACHIEVEMENTS

- *2nd Place Codicon (Lexpin - 2024) /* Leading the programming efforts within my team. Developed an AI for genetic predictions using Next.js and the OpenAI API. Our creativity in utilizing the event's keyword, 'link,' was highlighted by the Lexpin team. Additionally, I gained insights into leadership, effective communication and interpersonal skills.
- *Honorable mention Codicon (Yummy - 2023) /* Hackathon organized by Yummy, a prominent software company in Venezuela. As a frontend developer, I contributed by applying UI/UX principles and effective communication within my team. My robust performance under pressure and problem-solving was recognized by the team, and I learned the importance of listening to diverse ideas and perspectives within a team.

WORK EXPERIENCE

Semi-senior Mobile Developer / DeepCompany, Caracas – Venezuela

02/2024 - 06/2024

Contributed to mobile app development using Flutter, emphasizing user experience, performance, and visual aesthetics. Additionally, collaborated effectively within a team, following best organizational practices to achieve successful outcomes. My soft skills encompass active listening, adaptability, and effective communication. Technically, I specialize in Flutter, Dart, UI/UX design, and performance optimization.

Frontend Developer / Overgroup, Spain

06/2023 - 12/2023

Developing interfaces for various web and mobile projects using Flutter and TypeScript, I collaborated on diverse crypto-related projects. These ranged from casinos to payment gateway SDKs.

Junior Developer / Colpixtec, Caracas – Venezuela

04/2022 - 12/2023

Expanding my knowledge of JavaScript, HTML and CSS, I also delved into backend tools like Laravel (PHP). During my time developing a market, we managed to position ourselves as leaders in positioning and the user base grew by 70% and reduce the first charge time by 40%. I gained experience in consuming data from a REST API. Additionally, I practiced active listening and maintained a commitment to continuous learning.
