EXPERIENCE

Colpixtec Junior Developer (Venezuela)
Apr 2022 – Dec 2023 (1 year, 9 months)
I expanded my knowledge of JavaScript and CSS, as well as learned about back-end tools such as Laravel, PHP, MySQL, consuming data from a REST API, all this during the development of a marketplace dedicated to health products.

Overgroup Frontend Developer (Spain)
Jul 2023 – Dec 2023 (5 months)
I developed interfaces in different web and mobile projects with flutter and typescript with frameworks such as next and tailwind, collaborating on different projects related to the crypto world, from casinos to payment gateway SDKs.
